

SSC CGL Tier-II

Previous Year Paper
19 Jan, 2026

Q1. A set of n values $X_1, X_2, \dots, X_n$ has a standard deviation of 5. The standard deviation of n values $X_1 - 7, X_2 - 7, \dots, X_n - 7$ will be:

- A) 0
C) 10
B) 5
D) 7

Correct Answer: B

Q2. The height of a pyramid is 8 m, and the base of the pyramid is a square whose diagonal is $\sqrt{512}$ m. Find the approximate volume of the pyramid.

- A) 683 m^3
C) 982 m^3
B) 1092 m^3
D) 782 m^3

Correct Answer: A

Q3. Simplify: $\frac{\tan^2 \theta - \sin^2 \theta}{2 + \tan^2 \theta + \cot^2 \theta}$

- A) $\sec^6 \theta$
C) $\sin^6 \theta$
B) $\sin^2 \theta$
D) $\cos^2 \theta$

Correct Answer: C

Q4. A rectangle is such that its area is 48 cm^2 and its perimeter is 28 cm. If a rhombus is formed by joining the midpoints of the sides of this rectangle, what is the area of the rhombus?

- A) 12 cm^2
C) 24 cm^2
B) 48 cm^2
D) 20 cm^2

Correct Answer: C

Q5. The given table shows the number of people in different age groups. Find the mean age of the given number of people.

Class interval of age (in years)	Number of people (f)
25 - 29	10
30 - 34	12
35 - 39	8
40 - 44	5
45 - 49	15
50 - 54	10
55 - 59	15

- A) 54.2 years
C) 32.4 years
B) 38.6 years
D) 43.2 years

Correct Answer: D

Q6. A, B, and C invest in a business in the ratio 2:3:5. After 4 months, A increases his capital by 50%, B decreases his capital by $\frac{1}{3}$, and C leaves the capital unchanged. At the end of the year, if the total profit is Rs. 33,000, find the share of B.

A) Rs. 8,000

B) Rs. 10,500

C) Rs. 9,000

D) Rs. 7,700

Correct Answer: D

Q7. In a triangle ΔPQR , $\angle R = 62^\circ$. The perpendicular bisector of PQ at S meets QR at T. If $\angle TPR = 38^\circ$, what is the measure of $\angle PQR$?

A) 60°

B) 35°

C) 40°

D) 80°

Correct Answer: C

Q8. What is the value of $3/2\left(\frac{\cos 39^\circ}{\sin 51^\circ}\right) - \sqrt{\sin^2 39^\circ + \sin^2 51^\circ}$?

A) $3/2$

B) $7/8$

C) $5/6$

D) $1/2$

Correct Answer: D

Q9. At what rate of interest per annum will a sum of ₹15,625 amount to ₹19,683 in 1 year 6 months, if the interest is compounded half-yearly?

A) 18%

B) 20%

C) 16%

D) 8%

Correct Answer: C

Q10. The base of a right pyramid is an equilateral triangle with side 10 cm, and its vertical height is 24 cm. Find the volume (in cm^3) of the pyramid.

A) $200\sqrt{3} \text{ cm}^3$

B) $100\sqrt{3} \text{ cm}^3$

C) $400\sqrt{3} \text{ cm}^3$

D) $150\sqrt{3} \text{ cm}^3$

Correct Answer: A

Q11. A number is chosen at random from the set $\{1, 2, 3, \dots, 120\}$. What is the probability that the number chosen is divisible by 6 or 8 but not divisible by 24?

A) $23/120$

B) $25/120$

C) $21/120$

D) $19/120$

Correct Answer: B

Q12. A hemispherical tank is full of water. It is connected to a pipe that empties it at a rate of 7 litres per second. How much approximate time (in minutes) will it take to empty half the tank if the internal radius of the tank is 2.1 meters? (Use $\pi = 22/7$ and $1 m^3 = 1000$ liters)

- | | |
|---------------|---------------|
| A) 23 minutes | B) 16 minutes |
| C) 46 minutes | D) 11 minutes |

Correct Answer: A

Q13. If the mode of the data set $\{a, a + 2, a + 4, a + 6, a + 6, a + 6, a + 8\}$ is 26, find a .

- | | |
|-------|-------|
| A) 30 | B) 20 |
| C) 40 | D) 10 |

Correct Answer: B

Q14. P and Q can do a piece of work in 20 days and 30 days, respectively. They work together for 6 days, and then Q is replaced by R. If the rest of the work is completed by P and R in 8 more days, in how many days can R alone complete 60% of the work?

- | | |
|------------|------------|
| A) 28 days | B) 48 days |
| C) 34 days | D) 64 days |

Correct Answer: B

Q15. In an equilateral triangle, the circumcenter coincides with which of the following?

- A) One of the vertices
- B) The centroid of the triangle
- C) A point outside the triangle
- D) The midpoint of one of its sides

Correct Answer: B

Q16. The base of a right prism is an isosceles trapezium with parallel sides measuring 10 cm and 20 cm, and non-parallel sides measuring 13 cm each. The volume of the prism is $3240 cm^3$. What is the total surface area of the prism?

- | | |
|----------------|----------------|
| A) $2120 cm^2$ | B) $1620 cm^2$ |
| C) $1940 cm^2$ | D) $1368 cm^2$ |

Correct Answer: D

Q17. If the marks scored by the students in a class test out of 50 then, Find the Median of the following data:

Marks	Frequency
0-10	5
10-20	8
20-30	6
30-40	6
40-50	5

A) 38.9

B) 23.3

C) 18.8

D) 14.1

Correct Answer: B

Q18. If a chord of a circle subtends an angle of 60° at the circumference of the circle, then what is the ratio of the radius of the circle and the length of the chord respectively?

A) 1:2

B) $1 : \sqrt{3}$

C) 3:4

D) $2 : \sqrt{5}$

Correct Answer: B

Q19. A sphere of radius 21 cm is cut into 8 identical pieces by making three mutually perpendicular cuts through its center (one along each axis). Find the total surface area of each piece in cm^2 .

A) $560\pi cm^2$

B) $551.25\pi cm^2$

C) $450.75\pi cm^2$

D) $625.25\pi cm^2$

Correct Answer: B

Q20. The expenditure of a company on five heads A, B, C, D and E is in proportion to 3:5:7:11:? respectively. The expenditure on E is equal to the arithmetic mean of the expenditures on A and D. If the expenditure on C exceeds that on B by ₹18,000, find the total expenditure (₹) of the company.

A) ₹2,52,000

B) ₹2,97,000

C) ₹2,40,000

D) ₹1,80,000

Correct Answer: B

Q21. If $x + \frac{1}{x} = 2\sqrt{3}$, then find the value of $x^3 + \frac{1}{x^3}$.

A) $10\sqrt{3}$

B) $6\sqrt{3}$

C) $18\sqrt{3}$

D) $24\sqrt{3}$

Correct Answer: C

Q22. If $3x - ky + 8 = 0$ and $9x - 18y + 20 = 0$ have no solution, find k.

- A) 2
C) 9

- B) 6
D) 10

Correct Answer: B

Q23. How many integers in the set $\{1, 2, 3, \dots, 100\}$ have exactly 3 divisors?

- A) 4
C) 6

- B) 8
D) 2

Correct Answer: A

Q24. A sum of Rs. 4800 is divided among A, B, and C in the ratio 3 : 4 : 5. The share of B is how much more than that of A?

- A) Rs. 400
C) Rs. 200

- B) Rs. 300
D) Rs. 500

Correct Answer: A

Q25. If $\frac{\sin \theta}{x} = \frac{\cos \theta}{y}$, then $\sin \theta - \cos \theta$ is:

- A) $\frac{x-y}{2\sqrt{x^2+y^2}}$
B) $\frac{x-y}{\sqrt{3x^2+5y^2}}$
C) $\frac{5x-y}{3\sqrt{x^2+y^2}}$
D) $\frac{x-y}{\sqrt{x^2+y^2}}$

Correct Answer: D

Q26. The diagonals of three faces of a rectangular parallelepiped that meet at a single corner measure $\sqrt{5}$ cm, $\sqrt{10}$ cm, and $\sqrt{13}$ cm. What is the volume of this parallelepiped?

- A) 18 cm^3
C) 12 cm^3

- B) 24 cm^3
D) 6 cm^3

Correct Answer: D

Q27. The marks obtained by 9 students in a test are: 5, 8, 7, 9, 6, 7, 8, 7, 10. Determine: (i) Mode of the marks, (ii) Number of students scoring above average.

- A) Mode = 7, Number of students scoring above average = 3
B) Mode = 8, Number of students scoring above average = 4
C) Mode = 8, Number of students scoring above average = 3
D) Mode = 7, Number of students scoring above average = 4

Correct Answer: D

Q28. The weekly expenditure (in dollars) of 5 families on groceries is: Family A = 250, Family B = 400, Family C = 350, Family D = 500, Family E = 300. Determine: (i) Average expenditure, (ii) Family spending above average, (iii) Difference between highest and lowest expenditure.

- A) Average = \$350, Families above average = B, D, Difference = \$250
 - B) Average = \$360, Families above average = B, D, Difference = \$250
 - C) Average = \$360, Families above average = C, D, Difference = \$250
 - D) Average = \$360, Families above average = B, D, Difference = \$200
-

Correct Answer: B

Q29. In a right-angled triangle ABC, the angle at B is 90° . If AB = 6 cm and BC = 8 cm, what is the distance between the centroid G and the orthocenter H?

- A) 8 cm
 - B) 5 cm
 - C) $10/3$ cm
 - D) $20/3$ cm
-

Correct Answer: C

Q30. $\frac{0.1667 \times 0.8333 \times 0.3333}{0.2222 \times 0.6667 \times 0.1250}$ is approximately equal to:

- A) 2.5
 - B) 4.5
 - C) 0.5
 - D) 0.25
-

Correct Answer: A

Q31. If in a certain code, ALMIRAH is written as BNPMWGO, which word would be written as DNRWLUA?

- A) TOGSOLC
 - B) CLOSGOT
 - C) COSGOLT
 - D) TOGCLOS
-

Correct Answer: B

Q32. In a certain language, COMPUTER is coded as OCPMTURE. How is KEYBOARD coded in that code?

- A) KYEOBARD
 - B) EKBYAODR
 - C) EKYOBARD
 - D) KYEOBADR
-

Correct Answer: B

Q33. If '+' means 'division', '×' means 'addition', '—' means 'multiplication', and '÷' means 'subtraction', then find the value of the following expression:

$$36 - 2 + 4 \times 10 \div 5$$

- A) 23
C) 41

- B) 34
D) 11

Correct Answer: A

Q34. In each of the following problem, a square sheet with a pattern is given. How the pattern would appear when the sheet is folded at the dotted line.

- A)
C)

- B)
D)

Correct Answer: B

Q35. In the following letter sequence, one term is missing. Choose the correct option that will replace the question mark. EV, GT, JQ, OL, ?

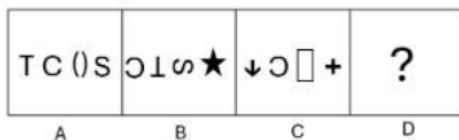

- A) UF
C) VE

- B) RI
D) KP

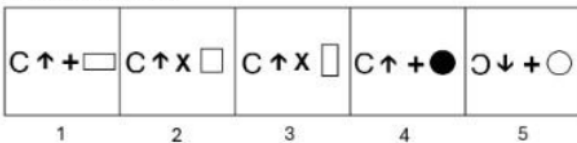

Correct Answer: C

Q36. There is a definite relationship between figures A and B. Establish a similar relationship between figures C and D by selecting a suitable figure from the answer set that would replace the question mark (?) in figure D.

Problem Figures:

Answer Figures:

- A) 1
C) 3

- B) 4
D) 2

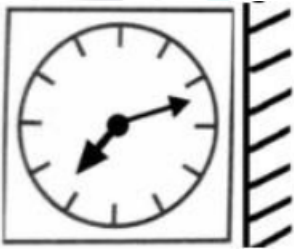

Correct Answer: B

Q37. P is married to M. W is the wife of S. G is the daughter of A. M is the mother of S. A is the sister of P. How is P related to W?

- A) Mother-in-law
- B) Daughter-in-law
- C) Son-in-law
- D) Father-in-law

Correct Answer: D

Q38. What is the mirror image of the given question figure , when mirror is placed at the right side of the question figure as shown in the figure?

- A)
- B)
- C)
- D)

Correct Answer: B

Q39. Pointing to Sakshi, I said, "She is the daughter of my wife's son's brother." How am I related to Sakshi?

- A) Granddaughter
- B) Grandson
- C) Grandfather
- D) Grandmother

Correct Answer: C

Q40. Which two numbers need to be swapped to make this equation correct?

$$20 \div 5 \times 3 + 10 - 4 = 20$$

- A) 20 and 10
- B) 3 and 4
- C) 4 and 5
- D) 5 and 10

Correct Answer: C

Q41. From the given options, select the group of letters that, when inserted in order from left to right into the blanks of the incomplete series, will logically complete it.

cd_fc_efcdefcde_cdefcde_cdef

- A) fcde
- B) cddf
- C) efd
- D) edff

Correct Answer: D

Q42. Directions: In the following question, two statements are given, followed by two conclusions (I and II). Assume the statements to be true even if they appear to contradict general facts. Determine which conclusion(s) logically follow(s) from the statements.

Statements:

All televisions are radios.

Some radios are transistors.

Conclusions:

I. All radios are televisions.

II. Some televisions are transistors.

A) Neither conclusion I nor II follows.

B) Both conclusion I and II follows.

C) Only conclusion II follows.

D) Only conclusion I follows.

Correct Answer: A

Q43. Which figure best represents the relation among Fathers, Teacher, Males?

A) 

B) 

C) 

D) 

Correct Answer: A

Q44. Select the option that is related to the fifth number in the same way as the second number is related to the first number and the fourth number is related to the third number:

3 : 30 :: 4 : 68 :: 5 : ?

A) 145

B) 130

C) 126

D) 175

Correct Answer: B

Q45. Observe the following table and determine the missing number in the last cell:

A	B	C	D	Result
5	2	3	10	40
4	3	5	8	40
6	4	2	12	?

A) 50

B) 25

C) 48

D) 72

Correct Answer: C

Q46. From the given options, select the group of letters that, when inserted in order from left to right into the blanks of the incomplete series, will logically complete it.

S _ _ KB _ FH _ BSF _ K _ SF _ _ B

- A) FHSKBHHK
C) FHSKHBHK

- B) FHSKHKHK
D) FHSKKBHK

Correct Answer: C

Q47. Select the option in which the given figure is embedded. (Rotation is not allowed)

- A)
- C)

- B)
- D)

Correct Answer: B

Q48. In the following letter sequence, each group follows a specific pattern. Identify the group of letters that should come next in the sequence.

ZYA, WVD, TSG, QPJ, ?

- A) OMN
C) NMM

- B) MON
D) MNM

Correct Answer: C

Q49. Select the option that is related to the fifth number in the same way as the second number is related to the first number and the fourth number is related to the third number:

4 : 49 :: 6 : 81 :: 8 : ?

- A) 176
C) 187

- B) 145
D) 121

Correct Answer: D

Q50. If P denotes '+', Q means '÷', R means '-' and S means '×', then which of the following equations is correct?

- A) $16 P 5 R 10 S 4 Q 3 = 19$
B) $16 S 5 R 10 P 4 Q 3 = 9$
C) $16 S 5 Q 10 P 4 R 3 = 9$
D) $16 Q 5 P 10 S 4 R 3 = 12$

Correct Answer: C

Q51. Instructions: In each of the following, the first and second pair of letters have a specific relationship. Apply the same logic to complete the third pair.

WOODLAND : ZIRXOUQX :: PERIODIC : SYUCRXLW :: MAGAZINE : ?

- A) NUCAQOLP
- C) HERDWBMO

- B) LOWXSYCZ
- D) PUJUCCQY

Correct Answer: D

Q52. Identify the word that cannot be constructed using the letters of the given word.

PROCRASTINATE

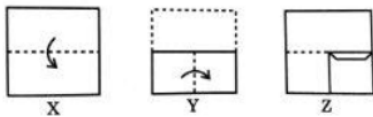

- A) PATTERN
- C) TRACTOR

- B) PRINTED
- D) PAINTER

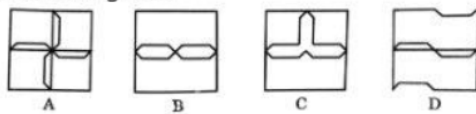

Correct Answer: B

Q53. The question consists of a set of three figures X, Y and Z showing a sequence of folding of a piece of paper. Figure Z shows the manner in which the folded paper has been cut. Choose a figure which would most closely resemble the unfolded form of figure Z.

Problem Figures:

Answer Figures:

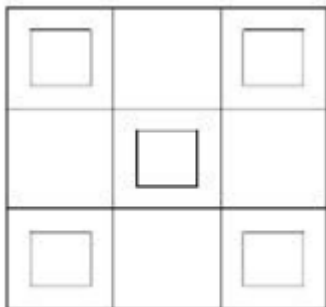

- A)
- C)

- B)
- D)

Correct Answer: B

Q54. How many squares are present in the following figure?

- A) 21
- C) 23

- B) 17
- D) 19

Correct Answer: D

Q55. Each letter in a word is assigned a specific number. From the four given arrangements of these numbers, identify which one represents a meaningful word when the numbers are translated back to their corresponding letters.

N, D, I, O, I, T, C, A, R

1 2 3 4 5 6 7 8 9

- A) 2, 5, 1, 8, 7, 3, 4, 6, 9
- B) 5, 1, 2, 3, 7, 8, 6, 4, 9
- C) 4, 9, 1, 3, 2, 8, 6, 7, 5
- D) 5, 2, 1, 9, 8, 4, 3, 7, 6

Correct Answer: B

Q56. Two matrices are provided: Matrix I uses row and column numbers 0 to 4. Matrix II uses row and column numbers 5 to 9. A letter is represented by row number, column number (for example, 23 means row 2, column 3 in Matrix I; 66 means row 6, column 6 in Matrix II). From the matrices, find the row-column codes for each letter in DUNG in sequence, and select the correct option from the given alternatives.

Matrix-I

	0	1	2	3	4
0	M	A	E	L	M
1	C	G	M	J	K
2	F	B	I	C	F
3	F	A	L	J	I
4	C	L	D	K	F

Matrix-II

	5	6	7	8	9
5	V	Y	U	S	S
6	P	X	Q	O	R
7	N	V	V	O	Q
8	S	Q	U	T	U
9	Q	X	S	V	Z

- A) 31, 76, 24, 96
- B) 20, 59, 41, 88
- C) 33, 68, 31, 75
- D) 42, 57, 75, 11

Correct Answer: D

Q57. In the following question, one statement is given, followed by certain inferences. Consider the statement to be true even if it seems to contradict commonly known facts. Read the inferences carefully and decide which of them logically follow(s) from the given statement.

Statement:

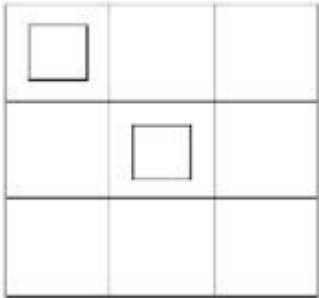

Humans cannot match the data processing speed of supercomputers, which perform billions of calculations per second.

Inferences:

- I. Humans are less efficient than supercomputers in data processing.
 - II. Humans and supercomputers differ in their capabilities.
- A) Only II follows
 - B) Both I and II follows
 - C) Neither I nor II follows
 - D) Only I follows

Correct Answer: B

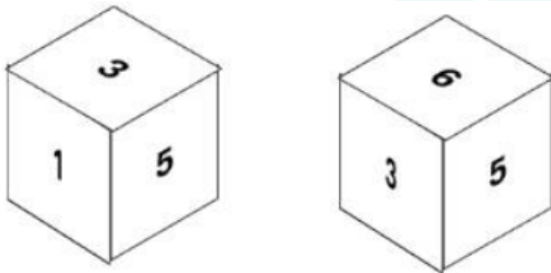

Q58. How many squares are present in the following figure?

- A) 16
- B) 18
- C) 12
- D) 14

Correct Answer: A

Q59. Two positions of the same dice are shown. Select the number that will be on the face opposite to the one showing the number 6?

- A) 5
- B) 3
- C) 4
- D) 1

Correct Answer: D

Q60. The following series of numbers is given. One number is missing. Study the pattern and find the missing number.

8, 32, 72, 128, ?

- A) 250
- B) 200
- C) 228
- D) 300

Correct Answer: B

Q61. The following sentence has been divided into four parts. Identify the part which contains a grammatical error. If there is no error in the sentence, then select 'No Error'.

The company will invest more(A) six hundred crores(B) in the next five years to expand(C) its operations in Britain (D).

A) D

B) A

C) C

D) B

Correct Answer: B

Q62. Given below are four jumbled parts of a sentence. Select the option that gives their correct order.

A) has been attributed by many climate scientists

B) the unprecedented frequency of extreme weather events

C) to the steady rise in global atmospheric temperatures

D) observed across various continents over the last decade

A) BDAC

B) CBAD

C) ABCD

D) ADBC

Correct Answer: A

Q63. Select the correct passive form of the given sentence. The burglar destroyed several items in the room. Even the carpet has been torn.

A) The burglar, being destroyed several items in the room, also carpet has torn.

B) Several items destroyed in the room by the burglar. Even the carpet he has torn.

C) Including the carpet, several items in the room have been torn by the burglar.

D) Several items in the room were destroyed by the burglar. Even the carpet has been torn.

Correct Answer: D

Q64. Given below are four jumbled sentences. Select the option that gives their correct order.

A. Here, the picture-perfect French Quarter and heritage laden Tamil streets blend into one another.

B. Across many metropolitan cities, there exists a visible conflict in how the old and the new coexist.

C. The old and new, like two different worlds, surviving side by side yet never crossing that chasm.

D. However, Puducherry stands as a striking exception, where these very contrasts are celebrated rather than endured.

A) BCDA

B) ABCD

C) DABC

D) BACD

Correct Answer: A

Q65. Choose the appropriate antonym of the given word. Gullibility

A) Trust

B) Naviety

C) Innocence

D) Skepticism

Correct Answer: D

Q66. In the following question, out of the four alternatives, choose the one which gives the meaning of the given idiom or phrase. A stitch in time saves nine

- A) Tailoring is a valuable skill
- B) Drunk or intoxicated
- C) Saving money for the future
- D) Timely action prevents more work

Correct Answer: D

Q67. Select the correct direct form of the given sentence. He inquired whether the boy's name was Ahmed.

- A) He asked, "The boy's name is Ahmed?"
- B) He asked, "Whether the boy's name was Ahmed?"
- C) He asked, "Was the boy's name Ahmed?"
- D) He asked, "Is the boy's name Ahmed?"

Correct Answer: D

Q68. Choose the appropriate synonym of the given word. Erroneous

- | | |
|----------|---------------|
| A) Vital | B) Fallacious |
| C) Right | D) Accurate |

Correct Answer: B

Q69. Select the most appropriate option to substitute the highlighted segment in the given sentence. If there is no need to substitute it, select 'No improvement'.

Come quickly if you will catch the train.

- | | |
|-------------------|---------------------|
| A) If you have | B) If you will have |
| C) If you want to | D) No improvement |

Correct Answer: C

Q70. Select the wrongly spelt word out of the four alternatives.

- | | |
|--------------|----------------|
| A) Imperial | B) Implication |
| C) Impetuous | D) Impetunent |

Correct Answer: D

Q71. Select the most appropriate option to substitute the highlighted segment in the given sentence. If there is no need to substitute it, select 'No improvement'.

Tom was standing besides the schoolhouse poster, when the ball rolled towards him.

- A) stand beside the schoolhouse poster
- B) stood beside the schoolhouse poster
- C) standing beside the schoolhouse poster
- D) No improvement

Correct Answer: C

Q72. In the following question, out of the four alternatives, choose the one which can be substituted for the given words/sentence. Fear of ugliness.

- | | |
|------------------|---------------|
| A) Hydrophobia | B) Cacophobia |
| C) Arachnophobia | D) Acrophobia |

Correct Answer: B

Q73. Select the correctly spelt word out of the four alternatives.

- | | |
|----------------|---------------|
| A) Grosteasque | B) Grotesque |
| C) Growtesque | D) Grostasque |

Correct Answer: B

Q74. Choose the most appropriate option to fill the blank in the given sentence. The tiny deer stood looking at them with _____ eyes.

- | | |
|----------------|-------------|
| A) Stationary | B) Arid |
| C) Transparent | D) Luminous |

Correct Answer: D

Q75. Select the correct indirect form of the given sentence. "Do you suppose you know better than your own father?" jeered his angry mother.

- A) His angry mother jeered that did he suppose he knew better than his own father.
- B) His angry mother jeered and asked whether he had supposed he has known better than his own father.
- C) His angry mother jeered and asked if you suppose you know better than your own father.
- D) His angry mother jeered and asked whether he supposed he knew better than his own father.

Correct Answer: D

Q76. Choose the option that contains the homonym of the highlighted word in the given sentence.

Please make sure to write your full home **address**, including the apartment number and zip code, on the top of the application form.

- A) After living in the city for ten years, Sarah had to notify the post office that her permanent address was changing to a rural farmhouse.
- B) The delivery driver called me because he was having trouble finding my address on the GPS due to the new construction in the neighborhood.
- C) Millions of people tuned in to watch the president's televised address regarding the new economic policies.
- D) The celebrity requested that her residential address be kept private and removed from all public search directories for security reasons.

Correct Answer: C

Q77. In the following question, out of the four alternatives, choose the one which gives the meaning of the given idiom or phrase. To strain at a gnat and swallow a camel

- A) To be extremely physically weak
- B) To have a very large appetite
- C) To fuss over trifles while ignoring big issues
- D) To be meticulous in everything

Correct Answer: C

Q78. Given below are four jumbled parts of a sentence. Select the option that gives their correct order.

- A) by the intricate tapestry of
- B) the philosopher was captivated
- C) that define human existence
- D) moral and ethical dilemmas

- | | |
|---------|---------|
| A) ABCD | B) DBAC |
| C) BADC | D) CBAD |

Correct Answer: C

Q79. Select the correct indirect form of the given sentence. "Call the first witness," said the judge.

- A) The judge asked if they would call the first witness.
- B) The judge said that the first witness should be called.
- C) The judge ordered that called the first witness.
- D) The judge ordered them to call the first witness.

Correct Answer: D

Q80. Select the correct active form of the given sentence. The massive exterior wall of the old mansion was being painted by the skilled laborers when it suddenly started raining heavily.

- A) The skilled laborers were painting the massive exterior wall of the old mansion when it suddenly started raining heavily.
- B) The skilled laborers painted the massive exterior wall of the old mansion when it suddenly started raining heavily.

- C) The skilled laborers are painting the massive exterior wall of the old mansion when it suddenly started raining heavily.
- D) The skilled laborers had been painting the massive exterior wall of the old mansion when it suddenly started raining heavily.

Correct Answer: A

Q81. Select the correct direct form of the given sentence.

I asked Mary if she would lend me a pencil.

- A) I said, "Mary, will you lend me a pencil?"
- B) I said to Mary, "Can you lent me a pencil?"
- C) I said, "Mary, will she lend me a pencil?"
- D) I asked to Mary, "Would you lend me a pencil?"

Correct Answer: A

Q82. The following sentence has been divided into four parts. Identify the part which contains a grammatical error. If there is no error in the sentence, then select 'No Error'.

The whole family (A)/ would burst into (B)/ peals for laughter. (C)/ No Error (D)

- A) D
- B) B
- C) A
- D) C

Correct Answer: D

Q83. Select the correct active form of the given sentence.

Why was such a letter written by your brother?

- A) Why was your brother writing such a letter?
- B) Why had your brother written such a letter?
- C) Why did your brother write such a letter?
- D) Why does your brother write such a letter?

Correct Answer: C

Q84. Given below are four jumbled sentences. Select the option that gives their correct order.

- A. Faced with the high cost and scarcity of Indian indigo; European manufacturers were forced to rely on the woad plant for their dyeing needs.
- B. However, cloth dyers still preferred indigo, as it produced a significantly richer and more vibrant blue than woad ever could.
- C. Since woad thrived in temperate climates, it was readily available and easily cultivated throughout Europe.
- D. Indian indigo was prohibitively expensive, and only meager quantities ever reached European markets.

- A) DACB
- B) BCAD
- C) CBAD
- D) ABCD

Correct Answer: A

Q85. Choose the most appropriate option to fill the blank in the given sentence.

Radium _____ rays that can damage the eyes.

- A) gives away
- B) gives over
- C) gives off
- D) gives up

Correct Answer: C

PASSAGE (Q.86 - Q.90)

Read the following passage carefully and answer the questions based on the passage:

Pride and Prejudice by Jane Austen is a classic known for its humor and complex characters. The famous first sentence of the book, "It is a truth universally acknowledged, that a single man in possession of a good fortune, must be in want of a wife," begins to set up all of the major themes of money, status, and marrying well that are prevalent in 19th-century England. The Bennet family, particularly Elizabeth Bennet, a smart and strong-willed heroine, is the subject of Austen's commentary on the societal imperative for women to marry well and thereby have a stable income.

The title itself is quite meaningful, as it first indicates the character flaws that drive much of the conflict in this novel, namely Darcy's pride and Elizabeth's prejudice. In fact, Mr. Fitzwilliam Darcy, being a rich and high-ranking person, first of all shows a haughty character, thereby being very superior by virtue of his class. Elizabeth, having been offended by his initial lack of warmth, as well as having been misled by the deceiving Mr. Wickham, very quickly showed prejudice against him.

Traces the story of each as they navigate these weaknesses. Darcy needs to lower his pride to appreciate the value of Elizabeth's inferior standing, though she must see the strength of his superior qualities.

Austen employs irony and satire liberally to point out the absurdities of the class structure. Personages like the obsequious Mr. Collins and the imperious Lady Catherine de Bourgh symbolize the hard and silly aspects of class consciousness. The sojourn at Darcy's grand estate, Pemberley, is an important defining instance in which the splendor of the property and the favorable reports of his servants compel Elizabeth to revise her earlier opinion and realize the truth of Darcy's goodness.

In the final analysis, the novel promotes love marriages, couples like Jane and Bingley, and Elizabeth and Darcy, who have successful marriages because of love, in contrast to couples who marry for convenience (Charlotte Collins and Mr. Collins) or those who are full of passion but irresponsible (Lydia and Wickham).

Q86. What are the major themes expressed by the first line of the novel?

- A) Nature and the countryside
- B) Wealth, status, and marriage
- C) Education and morality
- D) Love & War

Correct Answer: B

Q87. Which defects in character does the name "Pride and Prejudice" primarily refer to?

- A) Darcy's pride and Elizabeth's prejudice
- B) Lydia's erratic behavior and Wickham's deceptions
- C) Arrogance of Lady Catherine and Mr. Collins's servility
- D) Mr. Bennet's wit and Mrs. Bennet's fussiness

Correct Answer: A

Q88. How is the character of Lady Catherine de Bourgh employed in the novel as a criticism of society?

- A) She is purely comic relief and has no other significance.
- B) She represents the struggle of the working class against the landed gentry.
- C) She symbolizes ideal maternal love and wisdom.
- D) She represents social tyranny and class prejudice.

Correct Answer: D

Q89. What is the key event that marks a turning point in making Elizabeth change her view of Darcy?

- A) Rejection of Mr. Collins's Proposal
- B) Lydia's elopement with Wickham
- C) The Netherfield Ball
- D) Her visit to Pemberley and her reception of Darcy's letter

Correct Answer: D

Q90. What kind of marriage does Jane Austen appear to prize the most, according to the conclusion of the novel?

- A) Marriages for convenience and connections to family
- B) Based on mutual respect, love, and understanding in marriage
- C) Marriages based solely on financial security
- D) Marriage contracts entered into by reason of romantic love alone

Correct Answer: B

PASSAGE (Q.91 - Q.95)

Read the following passage carefully and answer the questions based on the passage:

The Viksit Bharat - Guarantee for Rozgar and AJeevika Mission (Gramin) Act (VB-GRAM G), 2025, has been replaced by the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). The goal of this modification is to improve Article 21 of the Indian Constitution, which protects the right to life. MGNREGA has improved socioeconomic conditions by facilitating wage payments, providing unemployment benefits, and promoting equal earnings. There has been sustainable development, and

research has confirmed the impact of this program to raise earnings, alleviate poverty, and encourage school enrollment. In the past five years, women have comprised 58% of the workforce, significantly contributing to rural development, particularly during the COVID-19 pandemic. Given these factors, it is important to assess both the benefits and current challenges of the system.

Despite MGNREGA's successes, the program has faced implementation challenges, mainly due to inadequate funding, as acknowledged by the Ministry of Finance. Delays in wage payments and fewer work opportunities have resulted from this lack of funds. Recent rules, such as introducing an attendance application that uses photos, have created new problems and made corruption easier. Due to these issues, the VB-GRAM G Act has introduced important changes, including sections 5(1) and 4(5), which give the Union Government greater control over the public works program.

Q91. What might be the author's overall purpose for discussing the development from MGNREGA to the VB-GRAM G Act?

- A) Argue that a decrease in the role of government can logically solve the inherent shortcomings in rural employment patterns
- B) Emphasize how institutional reforms try to maintain constitutionally provided rights while recognizing administrative weaknesses
- C) Argue that technology-based interventions will necessarily increase the levels of transparency and accountability associated with public programs
- D) Argue that a transition from a rights-based framework to an AI-based system is necessary to achieve efficient results for rural communities.

Correct Answer: B

Q92. The author's tone regarding new rules (e.g., photo-based attendance) is best described as?

- A) Detachedly descriptive, outlining reforms to procedures without evaluative judgments.
- B) Cautiously critical, admitting the benefits of innovation while pointing out the dangers of abuse in bureaucracies
- C) It is a direct rejection that states tech solutions do not work in rural welfare activities because the officials are illiterate
- D) Digital interventions will resolve longstanding governance issues.

Correct Answer: B

Q93. What can be reasonably inferred about the relationship between women's participation and rural resilience during the pandemic?

- A) Their involvement could have led to a decrease in total program productivity owing to the fact that the local populace was heavily burdened with expanded caregiving during the pandemic.
- B) Their intensified appearance might have worsened the existing support structures that were failing in the health crisis.
- C) Their significant involvement contributed to the continuation of the community through the maintenance of the local economy in spite of the general economic disruptions that were happening.
- D) The fact that they were active seemingly led to the acceleration of the community's fiscal problems because it resulted in program expenditure being amplified during a time of uncertainty.

Correct Answer: C

Q94. What does the author's discussion of lack of funding primarily indicate?

- A) Resource allocation practices are highly effective but seem problematic due to certain short-term fiscal fluctuations
- B) Administrative inefficiencies and implementation challenges due to a shortage of funding.
- C) Decentralized authority has caused divergent effects that will certainly lead to a reduction in job guarantees.
- D) Local administrations limit opportunities so as to have control over the release of finances.

Correct Answer: B

Q95. What does “sustainable development” mean most nearly in the context of the passage?

- A) Improvements relating to long-term socioeconomic benefits for rural households via stable program design
- B) Strategies that place emphasis mainly on technological diffusion as a principal means of rural transformation
- C) Outcomes that emphasize the creation of jobs in the short term, even if there are uncertain long-term consequences for individual welfare
- D) Discusses advancements that are characterized by fast infrastructure development without consideration of administrative viability.

Correct Answer: A

PASSAGE (Q.96 - Q.100)

Read the following passage carefully and answer the questions based on the passage:

"Bank failures raise serious concerns about supervisory oversight." The case studies of Credit Suisse and Silicon Valley Bank highlight the deficiencies in supervisory supervision. In many instances, supervisors are hesitant to come into conflict with bank management when weaknesses are identified, preferring to do nothing rather than take corrective action at a point in time when key issues are building into a problem.

Regulators must adopt an attitude change in which they place more emphasis on the results rather than the details. Overemphasis on trivial matters might lead regulators to overlook more fundamental issues, such as whether financial institutions have adequate capital in case of a shock. Regulating requirements must be simplified. Complex regulation requirements in relation to capital may overlook systemic risk in their approaches when stress tests result in activities gravitating towards less heavily regulated institutions in the non-bank sector.

Improved supervisory and bank communications would promote better supervision as a tool for managing risk. Recommendations include being up front about supervisory goals, openness to change within the bank organization, and increased transparency in supervisory contracts as a way of promoting swift problem resolution. These would aid shareholders as well as the overall economy. In conclusion, rather than

pursuing a micro-management strategy, a move towards a clearly defined regulation that supports positive incentives is what is needed to ensure that banks behave within frameworks that promote financial stability.

Q96. Which of the following is most true in regard to stating the structure of logic found in the author's conclusion?

- A) It suggests that the responsibility for assurance should lie with organizations rather than with outsiders.
- B) It proposes that bank managers should be given more freedom in setting.
- C) It urges a transition from procedural pedantry towards a results-oriented strategic framework.
- D) It suggests a complete deregulation of the banking system to promote a competitive world economy.

Correct Answer: C

Q97. The use of "stress tests" by the author is an example of illustrating which of the following consequences?

- A) The movement of risk-related financial activities into industries that are less heavily regulated.
- B) The failure of financial institutions to report their internal capital requirements accurately.
- C) The direct relationship between complex regulatory obligations and long-term stability.
- D) The enhanced clarity of communication between shareholders and bank managers.

Correct Answer: A

Q98. Why are supervisors often slow to act when banks have problems?

- A) They do not have the legal power to stop a financial crash.
- B) They prefer to avoid conflict instead of fixing risks early.
- C) They are confused because modern bank rules are too simple.
- D) They use a secret strategy to keep their contracts private.

Correct Answer: B

Q99. What would "positive incentives" do for the banking system?

- A) Stop banks and regulators from talking to each other often.
- B) Make bank rules much more complicated and harder to follow.
- C) Help banks behave in a way that keeps the economy stable.
- D) Bring back micro-management and focus on tiny details.

Correct Answer: C

Q100. The tone with which the author approaches the current situation of "complex regulation" is best described as:

- A) Uninterested in how these rules change where money is stored.
- B) Impressed by how much attention supervisors pay to tiny details.
- C) Critical because complicated rules can actually cause more risk.
- D) Hopeful that it will eventually help find hidden money problems.

Correct Answer: C

PASSAGE (Q.101 - Q.105)

In the following question, some of the words in the passage have been left out. Read the passage carefully and choose the correct word for each blank, out of the four alternatives and fill in the blanks.

After falling consistently _____ (1) the U.S. dollar for a major part of the year, the rupee has _____ (2) somewhat over the last few weeks. It has risen by almost 5% from its lowest levels _____ (3) in October. Even with this recent improvement, the rupee is still down about 11% since the start of the year. The rupee's performance has been closely _____ (4) to global crude oil prices. This makes sense, as imported oil accounts for about 80% of India's total demand. The value of the rupee dropped when oil prices climbed earlier this year, a trend that lasted until early October. Since then, as global crude prices have fallen, the rupee has _____ (5) against the dollar.

Q101. What should come in blank (1) ?

- | | |
|---------|------------|
| A) with | B) of |
| C) for | D) against |

Correct Answer: D

Q102. What should come in blank (2) ?

- | | |
|-----------|--------------|
| A) ground | B) energy |
| C) admire | D) recovered |

Correct Answer: D

Q103. What should come in blank (3) ?

- | | |
|------------|-----------|
| A) reached | B) behind |
| C) admire | D) render |

Correct Answer: A

Q104. What should come in blank (4) ?

- | | |
|-------------|------------|
| A) amicably | B) morally |
| C) tied | D) tightly |

Correct Answer: C

Q105. What should come in blank (5) ?

- A) strengthened
- C) tandem

- B) relating
- D) culture

Correct Answer: A

Q106. Dr. Bhupen Hazarika is famously known by which of the following titles, reflecting his deep connection to the geography and spirit of Assam?

- A) Kala Guru of Assam
- C) Son of Brahmaputra

- B) Bard of Brahmaputra
- D) Voice of Brahmaputra

Correct Answer: B

Q107. Which of the following was a primary objective of Alauddin Khilji's 'Market Control' (Zawabit) regulations?

- A) To replace religious taxation with a uniform system of commercial levies across markets.
- B) To keep essential commodity prices low so soldiers could be maintained on fixed salaries.
- C) To expand treasury revenue by encouraging unrestricted trade with neighboring regions.
- D) To promote overseas trade by encouraging Indian textile exports to foreign empires.

Correct Answer: B

Q108. Which historical process is best reflected by the evolution of temple architecture in India?

- A) Sudden cultural change
- B) Foreign architectural dominance
- C) Decline of indigenous art
- D) Continuous interaction of religion and regional styles

Correct Answer: D

Q109. Regarding 'Hit and Run' cases under Section 106(2) of the Bharatiya Nyaya Sanhita, 2023 (BNS), what is the maximum punishment if an offender causes death by rash and negligent driving and fails to inform a 'police officer' or 'Magistrate'?

- A) Imprisonment up to 10 years and a fine
- B) Imprisonment up to 5 years and a fine
- C) Life imprisonment
- D) Imprisonment up to 7 years and a fine

Correct Answer: A

Q110. Which of the following biological processes explains why human muscles often feel sore or "cramped" after a sudden, intense bout of physical exercise?

- A) Accumulation of Ethyl Alcohol

- B) Excessive release of Carbon Dioxide
- C) Depletion of Vitamin C
- D) Accumulation of Lactic Acid

Correct Answer: D

Q111. Regarding the 'Subsidiary Alliance' system introduced by Lord Wellesley (1798–1805), which of the following statements is INCORRECT?

- A) The ruler was free to employ any European (French, Portuguese, etc.) as long as they were not in active conflict with the British.
- B) If the ruler failed to make payments for the maintenance of the British force, a portion of his territory was ceded as a penalty.
- C) The British promised not to interfere in the internal administrative affairs of the allied state.
- D) The Indian ruler was required to disband his own military and maintain a permanent British contingent within his territory.

Correct Answer: A

Q112. Consider the following statements regarding the current Vice President of India:

Statement 1: Chandrapuram Ponnusami (C.P.) Radhakrishnan is the Vice President of India, took charge on 12th September 2025.

Statement 2: Unlike the Presidential election, the electoral college for the Vice President includes nominated members of both Houses of Parliament.

Which of the statements above is/are **correct**?

- A) Both Statements 1 and 2 are correct
- B) Only statement 2 is correct
- C) Neither Statement 1 nor 2 is correct
- D) Only statement 1 is correct

Correct Answer: A

Q113. Read the below statements:

1. NASA launched a space telescope, SPHEREx, to study the universe's "cosmic glow".
2. The Major Atmospheric Cherenkov Experiment (MACE) telescope was inaugurated at Hanle, Ladakh.

Which of the above statements is/are **correct**?

- A) Only statement 1
- B) Statement 1 and 2 both
- C) Neither statement 1 nor 2
- D) Only statement 2

Correct Answer: B

Q114. The 'Fortaleza Declaration' of 2014 is most famous in BRICS history for the creation of which of the following?

- A) A common BRICS currency called 'R5'
- B) The Contingent Reserve Arrangement (CRA)
- C) The BRICS Space Agency
- D) A permanent BRICS Secretariat in Brazil

Correct Answer: B

Q115. Read the following statements regarding the 'Doctrine of Repugnancy' (Article 254):

Statement I: If a 'State law' on a "Concurrent List" subject conflict with a 'Union law', then the Union law prevails, and the State law becomes 'void' to the extent of the repugnancy.

Statement II: A State law on a Concurrent subject that conflicts with a Union law can still prevail within that State if it has been reserved for and received the assent of the President.

Which of the above statements is/are **correct**?

- A) Only Statement I is correct
- B) Only Statement II is correct
- C) Both Statements I and II are correct
- D) Neither Statement I nor II is correct

Correct Answer: C

Q116. The Second Five Year Plan (1956-1961), often associated with the Mahalanobis Model, marked a significant shift in India's development strategy. What was the primary focus of this plan?

- A) Rapid industrialization with a particular emphasis on the development of basic and heavy industries.
- B) Establishing an export-oriented economy to integrate rapidly with global trade markets.
- C) Achieving immediate self-sufficiency in food grain production through the Green Revolution.
- D) Maximizing the role of the private sector in the 'commanding heights' of the economy.

Correct Answer: A

Q117. Who was awarded the 2025 Pulitzer Prize for Fiction for a novel that serves as a provocative and satirical reimagining of the life of Jim from Mark Twain's 'Adventures of Huckleberry Finn'?

- | | |
|---------------------|---------------------|
| A) Hernan Diaz | B) Percival Everett |
| C) Colson Whitehead | D) Paul Lynch |

Correct Answer: B

Q118. Regarding the legal protection of Dugong (Sea Cow) in India, consider the following statements:

Statement 1: The Dugong is protected under **Schedule I** of the Wildlife (Protection) Act, 1972.

Statement 2: This classification provides the Dugong with the highest level of legal protection, similar to that of the Tiger.

Which of the statements given above is/are **correct**?

- A) Neither Statement 1 nor Statement 2
- B) Only Statement 2
- C) Only Statement 1

D) Both Statement 1 and Statement 2

Correct Answer: D

Q119. Which of the following **correctly** describes the NISAR mission?

- A) NASA-only mission for ultraviolet astronomy
- B) Optical imaging mission for exoplanet detection
- C) ISRO-only mission for X-band radar mapping
- D) Joint ISRO–NASA mission using L and S-band radar

Correct Answer: D

Q120. In a standard FIBA (International) game, how many quarters are played, and how long is each quarter?

- | | |
|---------------------------|----------------------------|
| A) Four 8-minute quarters | B) Four 10-minute quarters |
| C) Two 20-minute halves | D) Four 12-minute quarters |

Correct Answer: B

Q121. India hosted the 2025 Men's FIH Hockey Junior World Cup. Which of the following correctly states the location, host city name, and timing of this event?

A)

Lucknow, Uttar Pradesh, from December 1 to December 15, 2025

B)

Bhubaneswar, Odisha, from November 15 to November 30, 2025

C)

Chennai and Madurai, Tamil Nadu, from November 28 to December 10, 2025

D)

New Delhi, at Major Dhyan Chand National Stadium, from December 20 to December 31, 2025

Correct Answer: C

Q122. Which of the following statements regarding 'Navroz' (Nowruz) is **correct**?

A)

It is a lunar-based festival celebrated exclusively by the Buddhist community in the Himalayan belt.

B)

It is the Persian New Year celebrated on the Spring Equinox, introduced in India by Ghiyasuddin Balban.

C)

It is a monsoon festival commemorating the victory of Good over Evil in the Mughal courts.

D)

It marks the start of the harvest season in Southern India and is dedicated to the Sun God.

Correct Answer: B

Q123. Which of the following was a primary objective of '**Liberalization**' within the New Economic Policy (NEP) of 1991?

A)

Expanding the list of industries reserved exclusively for the public sector.

B)

Abolishing industrial licensing for most industries to encourage private entry.

C)

Strengthening the MRTP Act to restrict the expansion of large business houses.

D)

Increasing the peak customs duty on imports to protect domestic industries.

Correct Answer: B

Q124. Read the below statements regarding Aman Sehrawat's performance at the Paris 2024 Olympics:

Statement I: Aman Sehrawat won the bronze medal in the Men's 57kg freestyle wrestling event by defeating Darian Cruz of Puerto Rico.

Statement II: With this win, at the age of 21 years and 24 days, he surpassed PV Sindhu to become India's youngest-ever individual Olympic medalist.

Which of the following is **correct**?

A)

Only statement II is correct

B)

Neither statement I nor II is correct

C)

Only statement I is correct

D)

Both statements I and II are correct

Correct Answer: D

Q125. Match List-I (Schedules) with List-II (Provisions/Functionaries) and select the correct answer using the codes given below:

List-I (Schedule)	List-II (Specific Provisions/Functionaries)
A. Second Schedule	1. Forms of Oaths for Union Ministers and Judges of SC/HC
B. Third Schedule	2. Emoluments and Privileges of the President and Governors
C. Fourth Schedule	3. Allocation of seats in the Council of States (Rajya Sabha)
D. Seventh Schedule	4. Division of legislative powers between the Union and State governments

A)

A-2, B-1, C-3, D-4

B)

A-1, B-2, C-4, D-3

C)

A-4, B-1, C-3, D-2

D)

A-2, B-3, C-1, D-4

Correct Answer: A

Q126. Which of the following pairs of minerals and its leading producing state in India is **correctly** matched?

A)

Bauxite – Odisha

B)

Limestone – Jharkhand

C)

Mica – Rajasthan

D)

Copper – Uttar Pradesh

Correct Answer: A

Q127. Read the below statements:

Statement I: The 'Zoji La pass' serves as a very important link between the Kashmir Valley and the Ladakh region, cutting through the Great Himalayan Range.

Statement II: The 'Shipki La pass' is located in Arunachal Pradesh and serves as a primary gateway for the river Brahmaputra to enter India from Tibet.

Which of the above statements is/are **correct**?

A)

Only Statement II is correct

B)

Neither Statement I nor II is correct

C)

Only Statement I is correct

D)

Both Statement I and II are correct

Correct Answer: C

Q128. Which indicator is used to measure the 'Knowledge' dimension of the Human Development Index?

A)

Student-to-teacher ratio in secondary education

B)

Mean years of schooling and Expected years of schooling

C)

Adult literacy rate and primary school enrollment

D)

Number of universities and research publications

Correct Answer: B

Q129. From a macroeconomic perspective, which indicator best captures the government's borrowing requirement excluding interest payments on past debt?

A)

Budget deficit

B)

Primary deficit

C)

Fiscal deficit

D)

Revenue deficit

Correct Answer: B

Q130. What constitutes the primary objective of the Gyan Bharatam Mission?

A)

Preserving, digitizing, and disseminating India's manuscript heritage

B)

Developing new libraries across India

C)

Promoting Indian languages globally

D)

Translating classical texts into modern languages

Correct Answer: A

Q131. What is the primary benefit of enabling encryption for data in transit on a network?

A)

It protects against physical theft of devices

B)

It ensures that data is unreadable to attackers during transmission

C)

It improves the overall speed of data transfer

D)

It prevents unauthorized users from accessing the network

Correct Answer: B

Q132. In enterprise storage, how does a "Copy-on-Write" (CoW) snapshot differ from a traditional backup?

A)

It is stored on a physically separate secondary device.

B)

It only stores pointers to data blocks until those blocks are modified.

C)

It requires the system to be offline during the process.

D)

It creates a full bit-by-bit clone of the data immediately.

Correct Answer: B

Q133. In Windows 10/11, which shortcut key combination allows a user to cycle through apps on the Taskbar in the order they are pinned?

A)

Windows Key + Tab

B)

Alt + Tab

C)

Windows Key + T

D)

Ctrl + Alt + Tab

Correct Answer: C

Q134. Which of the following is a limitation of using symmetric encryption for securing communications?

A)

The encryption and decryption process is too slow

B)

Key distribution and management become challenging

C)

It requires more computational resources than asymmetric encryption

D)

It cannot be used for data at rest

Correct Answer: B

Q135. In the OSI model, which layer is responsible for routing packets across different networks using logical addressing?

- A)
Session Layer
- B)
Network Layer
- C)
Data Link Layer
- D)
Transport Layer

Correct Answer: B

Q136. In asynchronous serial communication, what is the role of "Hardware Handshaking" (e.g., using RTS/CTS lines)?

- A)
To provide error detection using parity bits
- B)
To synchronize the internal clocks of both devices
- C)
To encrypt data before transmission
- D)
To prevent data loss by managing buffer overflow

Correct Answer: D

Q137. A computer system has a memory capacity of $4K \times 8$ bits. How many address lines are required on the address bus to identify every byte in this memory uniquely?

- A)
8 lines
- B)
12 lines
- C)

16 lines

D)

10 lines

Correct Answer: B

Q138. In Excel's "Edit Mode," which keyboard shortcut allows you to insert a manual line break within a single cell to manage long text strings or multi-line formulas?

A)

Tab + Enter

B)

Ctrl + Enter

C)

Shift + Enter

D)

Alt + Enter

Correct Answer: D

Q139. What is the main purpose of using a file compression technique before uploading to cloud storage?

A)

To reduce the file size and save storage space

B)

To make the file readable across different devices

C)

To convert the file into a secure format

D)

To encrypt the file

Correct Answer: A

Q140. In Excel, which function would you use to count the number of cells in a range that meet a specific condition?

A)

=SUMIF(A1:A10, ">10")

B)

=COUNTBLANK(A1:A10)

C)

=COUNT(A1:A10)

D)

=COUNTIF(A1:A10, ">10")

Correct Answer: D

Q141. When comparing HDMI and DisplayPort, which feature is unique to the DisplayPort architecture?

A)

TMDS signaling

B)

Ethernet over cable

C)

Uncompressed audio

D)

Daisy Chaining (MST)

Correct Answer: D

Q142. What is the main purpose of a Trojan horse in network and information security?

A)

To block network traffic by overwhelming servers

B)

To steal or delete files and create a backdoor for hackers

C)

To silently copy itself to other systems using network vulnerabilities

D)

To intercept network traffic by flooding communication channels

Correct Answer: B

Q143. You are editing a 50-page thesis. The heading font size changes automatically whenever you modify one heading. You want **only the selected heading to change**, not all similar headings. What should you do?

- A)
Apply Direct Formatting
- B)
Use Format Painter
- C)
Modify the Style
- D)
Change the Theme

Correct Answer: A

Q144. Which mechanism handles the "Object Linking" in OLE by maintaining a persistent connection to a remote server's CLSID?

- A)
Component Object Model (COM)
- B)
